AN OVERVIEW

An Overview

OUR MISSION

Make life easier for people with disabilities through innovative equipment solutions, education and training.

OUR VISION

creating a world of inclusion and opportunities for people with disabilities through innovative equipment solutions, education and training.

OUR VALUE

We value, passion, respect and care.

OUR HISTORY

The vision of BartMeph Foundation was birthed almost two decades ago by a little girl who believed that every person with a disability has a gift within for survival.

The girl grew up in a world where people with disabilities were outcasts and often ridden by poverty or abuse.

The girl had an uncle named Simon Mtetwa who was deaf and dumb.

“I believe every person with a disability has a gift within for survival”

Simon did not have any hearing aids and lived in an environment with people who knew little or no deaf language. One moment of miscommunication, led Simon to die a tragic death which most probably might have been avoided, if he had access to hearing aids and the community was educated in disability awareness.

The girl made a promise that she will be part of the solution that fosters a world of inclusion and opportunities for people with disabilities.

In 2015 the vision was registered as BartMeph Foundation with an aim to create a world of inclusion and opportunities for people with disabilities through innovative equipment solutions, education & training.

AN OVERVIEW

CHAIRPERSON REPORT

Through our Strategic Plan we express and implement the core values of BartMeph Foundation Limited (“**The Foundation**”) values of passion, respect and care. They have become the moral compass of everything we do as we manage a period of strong growth. BartMeph Foundation Limited is a not for profit organisation that is dedicated to working with people with all types of disabilities, all ages and all levels of ability across Australia and Developing Countries, and additional accessibility for Australia Aboriginal and Torres Strait Islander individuals and communities.

The well-being of people with disabilities is very dear to my heart as, I have close relatives who have disabilities and I have watched firsthand how difficult life is for them as a result of their disabilities. I believe that the duty to enhance the independence and quality of life of people with disabilities depends on everyone’s input and effort. Hence it is also important to ensure that people with disabilities grow into confident people with well-developed self-esteem, and this can be achieved through innovative equipment solutions, education and training.

As this Annual Report for 2016 shows, we have made further advances towards our goals. With our global partners and initiative plan we are taking meaningful steps to reach people living with disability in the most remote areas in Australia and across the globe. We are trying to ensure that every person with a disability has access to solutions that allow them to fully participate and contribute to their communities. Support for The Foundation from Australian donors is still at its initial stage and we have plans in place to increase our digital presence so to open new ways for donors and supporters to stay involved in the work of The Foundation every day. Financially we remain solvent. I thank my fellow Board members and every volunteer member who have been crucial to ensuring this period of growth is carried out with transparency and agility. With your help, we will achieve that goals.
